How To Use Adventures with Barbie™ Ocean Discovery™ CD-ROM

Barbie™ can swim through the ocean in any direction. Simply move the pointer to the edge of the screen in the direction you would like Barbie to swim. Your pointer will change to a large arrow as shown below. If the pointer changes to the shape of a stop sign, try having Barbie swim in another direction, or go back and see if you missed any games you need to solve before moving further into the adventure.

Click on the scrapbook to see all the pictures you have taken with the underwater camera, print out a picture, replay games or quit the adventure

Click on the camera to take a picture at any time. Pictures are saved in the scrapbook where they can be printed in color or black and white.

Click on the treasure map for hints about the location of the treasure.
Every time you find another piece of the map, it is added here.

Click on the magnifying glass to take a closer look at the marine life, and at games and puzzles too!

Click on the flashlight to shed some light on your underwater surroundings. It comes in handy when you are looking for clues too!

When you find a clue, be sure to click on it and it will appear in one of the empty shells on the tool bar.

If you need program help during your underwater adventure, just click on the question mark at the top of the screen.
If you need help solving the adventure, click on Sandy, the dolphin.

Click on the life buoy at the top right corner of the screen to learn what part of the ocean you have been exploring and how far you have traveled.
